# Open Up and Recover Safely

A Three-phase Approach to Open Oklahoma's Economy

Published April 22, 2020

**OKLAHOMA**

## Open Up and Recover Safely (OURS)

Oklahoma will begin implementing a three-phased approach to open Oklahoma's economy back up starting April 24, 2020. This statewide plan is:

1. Based on scientific modeling from public health experts
2. Intended to mitigate risk of resurgence
3. Intended to protect Oklahoma's most vulnerable citizens from the threat of COVID-19<sup>i</sup>
4. Intended for businesses and individuals to utilize in conjunction with guidance from the Oklahoma Department of Commerce, the Oklahoma State Health Department, and the Centers for Disease Control (CDC).

**Before proceeding to a new phase, the Secretary of Health and Mental Health will confirm:**

- That Oklahoma COVID-19 hospitalizations and incidents are at a manageable level,
- that hospitals are treating all patients without [alternate care sites](#),
- that there is sufficient testing material in the state and ability to conduct contact tracing, and
- that the state can quickly and [independently supply](#) sufficient Personal Protective Equipment (PPE) and critical medical equipment, including ICU equipment, to handle a surge

*Further, the State of Oklahoma must address the following core responsibilities before proceeding to Phase 1:*

- Ensure the ability to quickly set up safe and efficient [testing](#) for symptomatic individuals
- Provide guidance intended to protect the health and safety of workers in critical industries
  - **Employers** should consider:
    - [Developing policies for](#) temperature checks, sanitation, use and disinfection of common areas,<sup>ii</sup> and business travel
    - Monitoring workforce for indicative symptoms; not allowing symptomatic people to physically return to work and consider implementing flexible sick leave and supportive policies and practices.
    - Developing and implementing policies and procedures for workforce contact tracing following employee COVID-19 testing
    - [and implementing appropriate policies](#) regarding social distancing and PPE,
- Advise citizens regarding protocols for social distancing and face coverings
  - **Individuals** should:
    - Continue to adhere to State and local guidance as well as complementary CDC guidance regarding social distancing

- Wash hands with soap and water
  - Avoid touching the face
  - Disinfect frequently-used items and surfaces as much as possible
  - Consider using face coverings while in public and when using mass transit
  - Stay home and contact their doctor if they are feeling sick
- **Monitor** conditions to limit and mitigate any rebounds or outbreaks

*If hospital & incident rates remain at a manageable level for 14 days, we move to Phase 1*
