Equipment can only be awarded to full time law officers.

***REQUESTS FOR BODY WORN CAMERAS**

According to the Bureau of Justice Assistance (BJA), law enforcement agencies across the country have begun equipping their officers with body-worn cameras (BWCs) over the past several years. The important benefits of BWCs and the challenges in implementing BWC programs, are highlighted in the BJA Body Worn Camera Toolkit.

The BJA <https://www.bja.gov/bwc/> provides model BWC policies, resources, and best practices to assist departments in implementing BWC programs.

Applicants using JAG funds to purchase BWC equipment or to implement or enhance BWC programs must certify that they have policies and procedures in place related to equipment usage, data storage, privacy, victims, access, disclosure, training, etc. Officers, prosecutors, defenders, victims and privacy advocates, and community groups should be consulted early in the BWC policy development process to guide and inform policy and procurement decisions. **The body-worn camera policy certification must be attached to the submitted application.**

****REQUESTS FOR IN-CAR MOBILE DATA TERMINAL SYSTEMS**

Requests for in-car mobile data terminal systems (MDTs) should include a quote designating the mobile data system, mounting hardware, docking station, mode of IP connectivity, and computer that ensures that the equipment is designed for use in a vehicle to withstand use in a harsh environment. Requests must specify a semi-ruggedized or ruggedized laptop or tablet.

In order to receive funding, the applicant must specify the software system (such as MobileCop) which allows law enforcement agencies to access vehicle tag and driver's license files within the state and allows for seamless messaging between individual law enforcement officers across the state, integration of law enforcement records including mugshot photos, and many other tools utilized by law enforcement officers in a mobile environment.

This is not an endorsement of any vendor or product, but for informational purposes only. Applicants should be aware that there are numerous agencies statewide, including the Department of Public Safety, using approximately 3,500 MobileCop to connect MDTs to the Oklahoma Law Enforcement Telecommunications

Pre-Application Instructions

System (OLETS), Oklahoma Automated Secured Information Sharing System (OASIS), National Law Enforcement Telecommunications System (NLETS), National Crime Information Center (NCIC) and other national, state, and local crime information databases. If you are interested in using MobileCop for system access for in-car laptop computers, contact Capt. David Baisden at 405-615-0242 or via e-mail at sodavbai@oklahomacounty.org for information and guidance with your application.

*****REQUESTS FOR IN CAR RADIOS and HANDHELD PORTABLE RADIOS**

For agencies located within the Oklahoma Wireless Information Network (OKWIN) coverage area, all requests made to the board by law enforcement agencies for radio communication equipment must be consistent and compatible with the OKWIN 800 MHz Trunked Radio System (see the coverage map below).

To determine if a jurisdiction is in the 800 MHz Trunked Radio Communication System coverage area, or for more information, visit <https://www.ok.gov/okwin>

OKWIN Network

******REQUESTS FOR VEHICLES**

The JAG Board approved funding for marked patrol vehicles only. Other equipment for a vehicle, such as light bars, etc., may not be requested. Agencies requesting vehicles that cost over the \$10,000 maximum limit of this grant, must state in the narrative that the agency agrees to provide the balance of the cost of the vehicle as well as what funds will be used to pay for the remaining cost of the vehicle. Undercover or unmarked patrol vehicles are prohibited.

*******REQUESTS FOR BALLISTIC-RESISTANT OFFICER PROTECTION EQUIPMENT**

The JAG Board approved funding for ballistic-resistant officer protection equipment. This is limited to daily wear ballistic vests. Any ballistic equipment purchased with JAG funds may be purchased at any threat level, make, or model from any distributor or manufacturer, as long as the vests have been tested and found to comply with the latest applicable National Institute of Justice (NIJ) ballistic or stab standards. In addition, vests purchased must be American made. Information on the NIJ standards can be found at:

<http://www.nij.gov/topics/technology/body-armor/pages/safety-initiative.aspx>. **Law enforcement agencies receiving ballistic-resistant and stab-resistant body armor must have a written "mandatory wear" policy in effect, which must be uploaded to your application.**

Body armor purchased with JAG funds must be "uniquely fitted vests," which means protective (ballistic or stab-resistant) armor vests that conform to the individual wearer to provide the best possible fit and coverage, through a combination of: (1) correctly sized panels and carrier, determined through appropriate measurement and (2) properly adjusted straps, harnesses, fasteners, flaps, or other adjustable features. The requirement that body armor be "uniquely fitted" does not necessarily require body armor that is individually manufactured based on the measurements of an individual wearer.

MATCH REQUIREMENT

There is no match requirement for this grant.

REIMBURSEMENT OF FUNDS

Marietta, City of

JAG-LLE-2023-MARIETTA CI-00006

Pre-Application Instructions

In order to receive the funds, the subgrantee must order and pay for all approved equipment and submit all required close-out documents prior to receiving payment. Upon receipt and approval of the close-out documents, reimbursement will be forwarded to the subgrantee in approximately one month.

PERSONNEL REQUIREMENTS

The Oklahoma State Auditor and Inspector's Office and the federal granting agency requires that there be sufficient internal controls within the applicant agency to reduce the risk for mismanagement, error, and/or fraud. No one person should control all aspects of procuring and payment of the requested equipment.

The Agency Administrator/Project Director is the contact person for all project activities and is responsible for meeting the goals and objectives of the award. The Financial Officer/Fiscal Officer is responsible for reporting the financial activity related to the award. The Agency Administrator/Project Director and Financial Officer/Fiscal Officer may **NOT** be the same person or have full corresponding access in OKGrants.

The Authorized Official can NOT be the chief of police, city clerk, or sheriff.**

AWARD PERIOD

The award period for this grant is January 1, 2024, to June 30, 2024.

NON-SUPPLANTING OF FUNDS

The definition of supplanting means to deliberately reduce a local budget by using federal funds to replace funds designated for that purpose. Supplanting is not allowed under federal funding guidelines.

An example of supplanting is when a local entity budgets \$5,000 for equipment, but rather than spending the \$5,000 as designated by the appropriation, the applicant agency uses \$5,000 of federal funds awarded for the same purpose. The applicant agency replaced the local funds with federal funds thereby reducing the total amount available for the identified purpose. A federal award must enhance or supplement an existing budget and not decrease it because of the use of federal funds.

REPORTING REQUIREMENTS

Subgrantees of the JAG-LLE Program agree to comply with the regulations as set by federal guidelines and the Federal Grants Division in the DAC. These requirements include record-keeping and financial reporting. The Quick Reference Guide will be provided in OKGrants when you complete the Award Documents online and it will provide detailed information on the reporting requirements.

REQUIRED ATTACHMENTS-PRICING DOCUMENTS

In order to receive funding, the applicant is required to submit with the application a current pricing document identifying the source, such as state contract, catalogue, or a bid from the company from which the estimated costs have been derived. A current pricing document must be dated within one year of the date of the application to be valid. Applicants are encouraged to acquire the best value for the requested equipment. Often the best value for municipalities may be through the statewide contracts.

Estimates for equipment may be obtained via the website
<https://www.ok.gov/dcs/solicit/app/solicitationDetail.php?conID=289>.

If an item is not on state contract or the best value is from a private vendor, then the documentation from the vendor must be attached. For example, if the requested item is from the Galls catalogue, list Galls under Source for Purchase on the budget page and attach the catalogue pages describing the requested equipment, including the price. If the equipment is from a private vendor, list the vendor and attach the bid.

NOTE: If current pricing documents (defined as dated within one year of the application due date) are not included with the application, the application will be disqualified.
